

CREATOR PARTNERSHIP PITCH

A little world. In your world.

Vector Tango is mixed reality air traffic control for the Meta Quest. Out November 3, 2026. Pre-order now on the Meta Horizon Store.

Matt Scobel · solo developer · vector-tango.com/creators

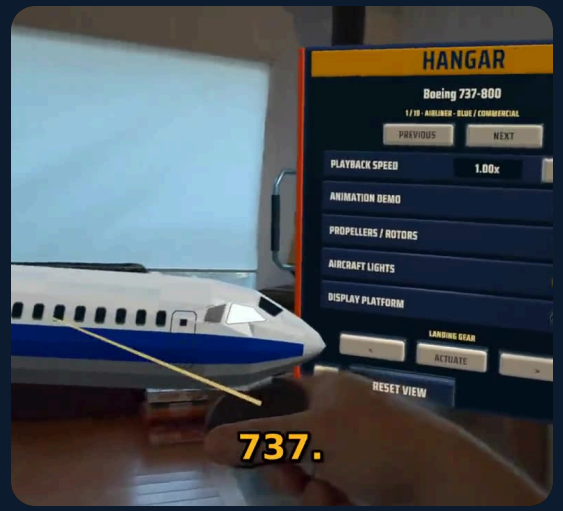

DRAW A LINE.
THE PLANE LANDS.

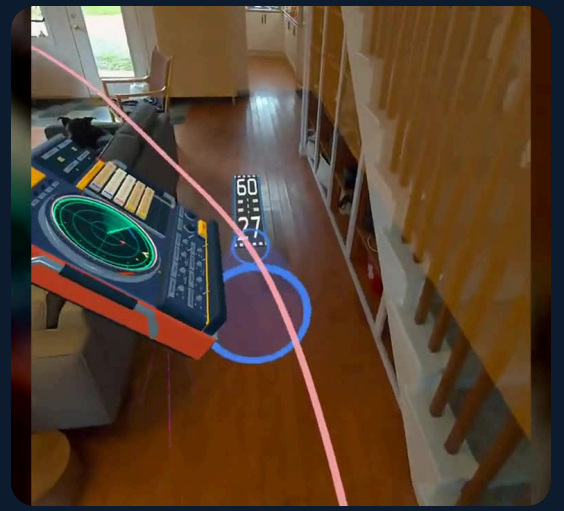

An airport on your table. The whole sky in your hands. Draw with your hand, a controller or the Logitech MX Ink pen.

MIXED REALITY

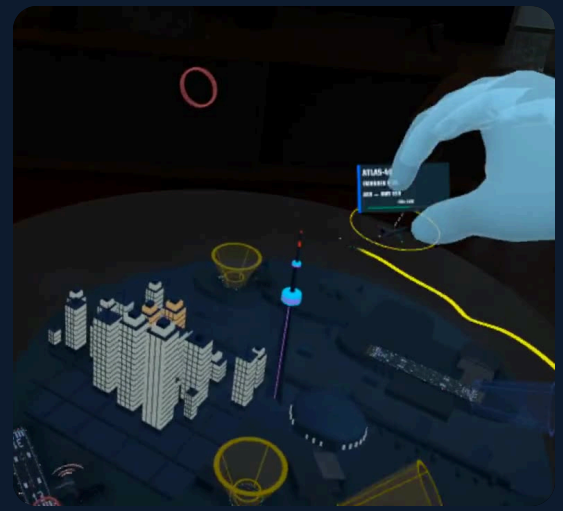

YOUR ROOM. YOUR AIRSPACE.

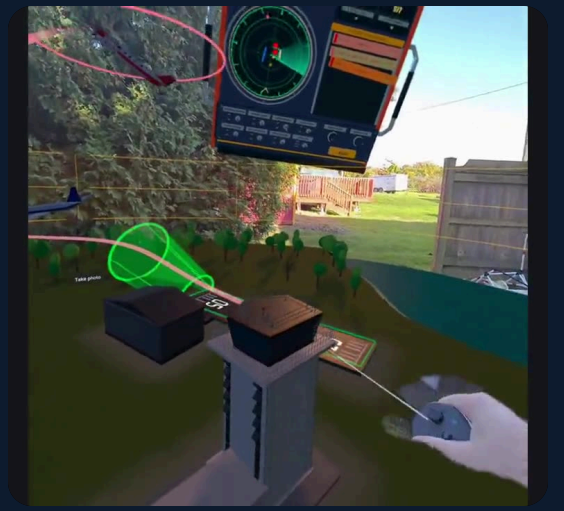

A 737 flies through the living room.

A corkscrew around a real floor lamp.

Night mode darkens the real room.

Take the airport outside, on the lawn.

The airport sits on a real table, at any size, or fills the whole room. The planes fly around your furniture. Every clip is captured in the headset.

VECTOR TANGO

FLIP ONE SWITCH.

Your room becomes a VR control tower, with the radar console and the airport out the window.

HOW IT PLAYS

THREE WAYS TO PLAY

VECTOR TANGO

CAMPAIGN

Frank's story. 25 shifts across five Ontario airports. John, your instructor, talks you through every new idea.

COMPETITIVE

Every ten safe flights adds a new twist. Play until the first crash, then see your place on that airport's leaderboard.

SANDBOX

Place runways and a helipad, pick a tower, set the traffic, the weather and the time of day.

Twelve pilots talk on the radio. Dawn to night. Clear skies to storms.

THE STORY

A TRIBUTE TO MY DAD

My father, Frank, was a Canadian air traffic controller from 1969 to 2008. The Campaign is his story. You play the Ontario airports where he worked.

Gander | Niagara | London | Hamilton | North Bay | Toronto

WHAT PLAYERS SAY

FIVE STARS

★★★★★

AN EXCELLENT GAME, ONE OF A KIND

"A friend told me about the playtest and wow just plays so well, a mini airport in my lounge, the landings when done correctly are perfect. I enjoyed the playtest so much I shared it with my VR FB group. Outstanding job."

GizmoDemi, review on the Meta Horizon Store

★★★★★

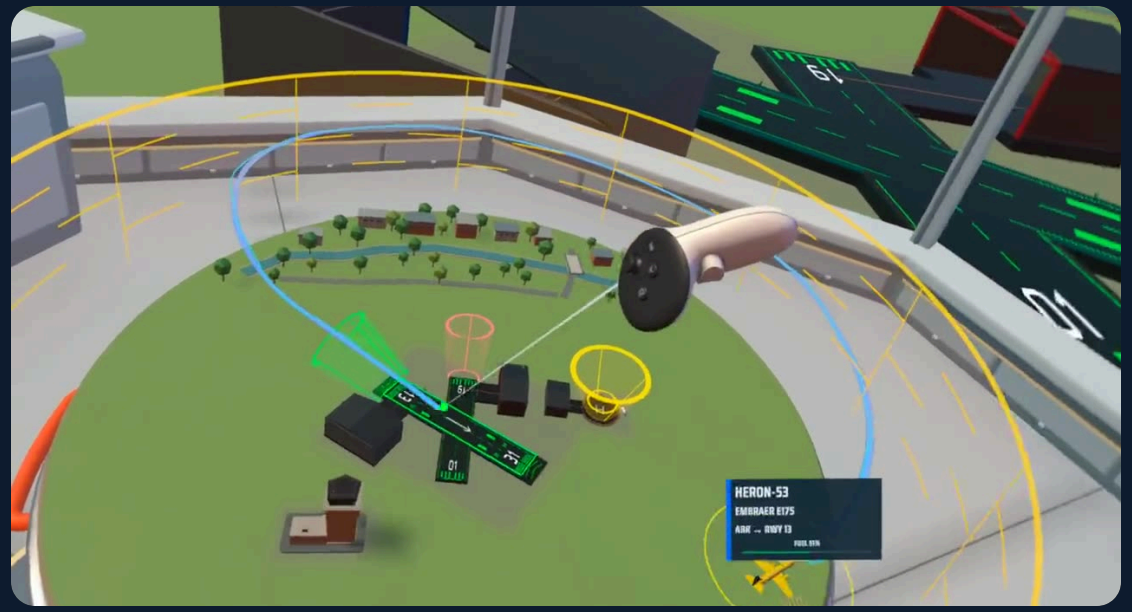

3 HOURS IN A ROW

"THIS GAME IS INSANE. 3 hours in a row."

A beta tester

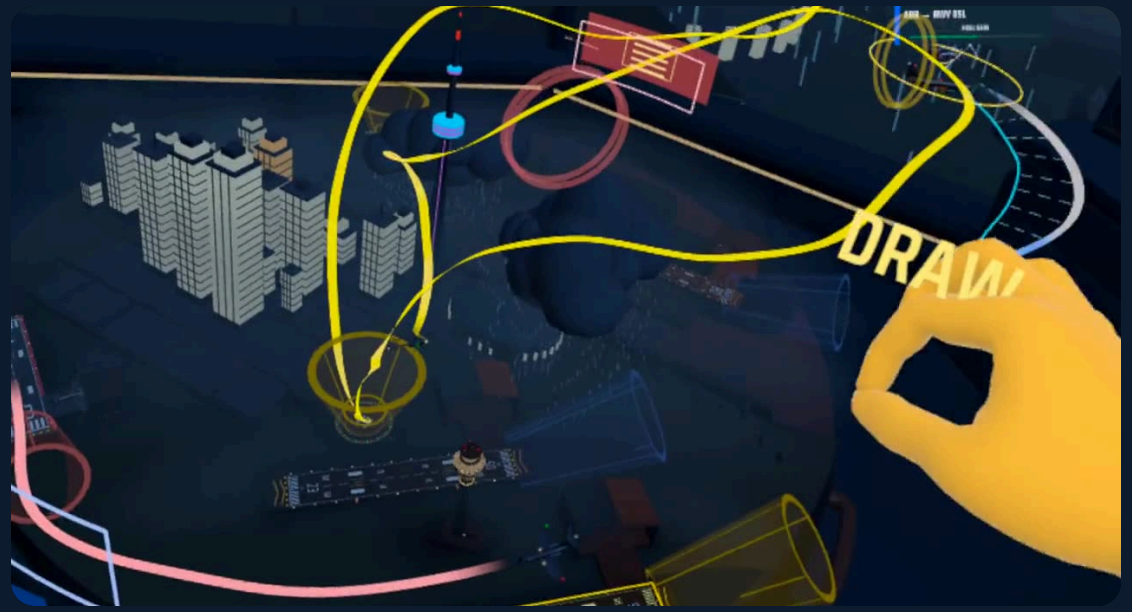

MADE FOR CAMERA

SHORT CLIPS THAT TRAVEL

432,000+ views

Two runways cross at London, Ontario. One short clip, 376 shares, 705 saves.

Storms. Low fuel.

A night storm over Toronto, one jet at 13 percent fuel. Every shift makes its own moment.

THE LAUNCH

OUT NOVEMBER 3, 2026

VECTOR TANGO

NOV 3

Release on the Meta Horizon Store. Pre-orders open now.

$19.99

USD store price, with a pre-order discount.

3RD OF 800+

The first browser version placed 3rd at Vibe Jam.

SOLO

Built by one developer, with AI tools, in Ontario, Canada.

For the Meta Quest. Mixed reality and VR. Hand tracking, controllers or the Logitech MX Ink pen.

LET'S MAKE A VIDEO.

First look, short or stream. You get the game, clips and an interview.
